Examples of Show Charges at various shows that we attend

These charges are strictly close examples of what you can expect to be charged by the various shows that we are available to attend. This form is meant to help prepare you for the charges involved with showing your horse/s this year depending on which show/s you decide to attend. We do not guarantee these to be the exact charges that you will be charged by the shows. These are very close estimates based on last year's shows and are subject to change with the new year and the location of the show. The exact charges will be discussed with you once we have received the new year's show premiums, prior to the shows. These show charges are per each horse being shown.
